ACHP is Uniquely Suited to Chart the Path for MA's Future

We know what works from decades of providing the highest quality, coordinated coverage and care for millions of seniors and have experienced the consequences of diminished competitiveness and upside-down financial incentives.

MA for Tomorrow is Grounded on Consumer-Focused Principles

Promoting Transparency

Focusing on Meaningful Measurement and Reward

Accelerating Value-Based Care

Reducing Burden

Advancing Equity

MA for Tomorrow is Built on Five Pillars

Raising the
Bar on
Quality

Advancing
Risk
Adjustment
for Care not
Codes

Improving
Consumer
Navigation

Modernizing
Network
Composition

Transforming
Benchmarks

MA for Tomorrow: Raising the Bar on Quality

Transition Away From Topped-out Process Measures and Increase the Number of Patient Experience and Outcomes Measures

Improve Measure Collection to More Accurately Reflect Patient Experience and Outcomes

Establish a Percentage of MA Contracts That Can Achieve Each Overall Star Rating

MA for Tomorrow: Advancing Risk Adjustment for Care NOT Coding

Calibrating the Risk Adjustment Model on MA Encounter Data

Tiering the Coding Intensity Adjustment

Targeting Risk Adjustment Data Validation (RADV) Audits

MA for Tomorrow: Improving Consumer Navigation

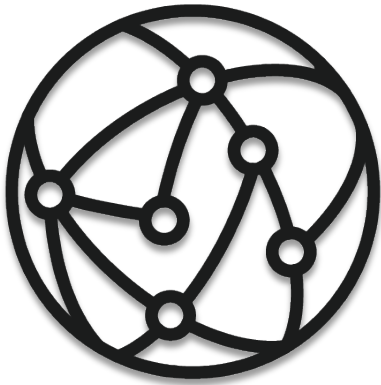

Reining in Misleading Marketing

Standardizing Broker Payment

Incentivizing Enrollment in High-Quality and Value-Based Health Plans

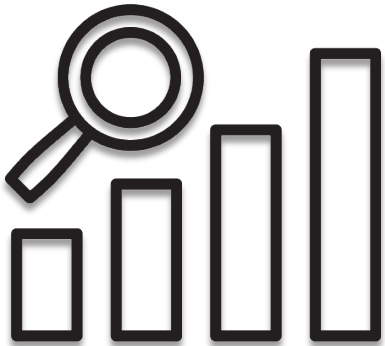

MA for Tomorrow: Modernizing Network Composition

MA for Tomorrow establishes contemporary network adequacy standards that embrace virtual care, remote monitoring and other innovative delivery models.

MA for Tomorrow: Transforming Benchmarks

MA for Tomorrow transforms the MA benchmark methodology, reducing the reliance on local fee-for-service costs and incorporating stronger incentives for achieving high-quality.
